Civilian Occupation Tool and Die Maker

Special Hobbies Hunting, Hiking, and Bike Riding for pleasure

Favorite Memory I had a small motorcycle which I bought from a fellow serviceman that was leaving shortly after I arrived. It was a 98cc air cooled model which I then sold to someone else a short time before I left. I enjoyed riding around the island and going to many unseen and unusual places. I also went places with several men whose names I don't remember any more. Three of us, one of whom owned a car, (a 1949 or '50 Ford I believe) went to the "Pali" to experience the view and the wind. The fellow who owned the car was afraid to drive back down from the mountain because the road was narrow and only two lanes. I drove down. Another fellow serviceman owned a Buick, a late 1940's model. He and another man were caught and fined by the police for picking a trunk full of ripe pineapples from a field, or so I was told later. Another friend, I believe it was the one who owned the Buick, and I went for a hike one day on a trail behind Helemano into the mountains toward the US Marine Naval Air Station of the East side of the Island. If I remember right it was a 5 or 6 mile hike in one direction and we had a great time and enjoyed it very much. I also remember the time 2 or 3 of us took a couple of the local girls to a beach on the Southwest side of the Island and ended up spending the night. I think one of the men was the Buick owner, but I'm not sure. We did nothing to dehumanize or disgrace the girls or ourselves. One of the men married a local girl and I attended their wedding. They spent their honeymoon on the Island of Kauhi where her father had a cabin. If I remember right he was from the State of Mississippi, but I can't recall his name. He and his wife, (girlfriend at the time) may have been the couple who spent the night on the beach with us.

Worst Memory The time I borrowed the 1949 or '50 Ford from my friend. Another friend and I took it to Honolulu to see a show or movie of some sort. On the way back, around Pearl City, a pickup truck with 3 local boys in it, passed me at a high rate of speed and cut back in to quickly. They hit the front fender and bumper of the Ford which caused some damage, but did not affect the front wheel or steering. They did not stop, so we headed for the police station. We were stopped shortly by a policeman who saw what happened and were taken back to where the pickup had stopped at an all night Hamburger stand. The friend who owned the car had it fixed at a body shop which laid the car up for a while. I never found out who paid to have the car fixed or what happened to the boy who was driving the pickup or what he was charged with

Special Comments I hope everyone had as much good fortune as I've had. An Almost perfect American dream. I've met and, served in the Army, and worked Civilian too, with really great people. We were able to buy our own home. 13 New cars, (not all at once). We paid for our son's college, thanks to God and our great Country.

What a shame! Less than a year ago, I threw out maybe three rolls of negatives. Although I still have some of the pictures in my album the negatives would have made some great prints. Oh well., that's life. I just looked for the 2 Unit pictures taken in 1949 by a pro. They're in roles somewhere. Maybe I can find them by 1999. I hope to be able to make Nashville.

I had a big thrill just the other day. Lowell Fowler called and we talked for at least 1/2 Hour. He's the guy that landed in the pokey with me. Surprise! No bomb threat or anything, he must have forgiven me. That's great!. To hear from some guy who was just another great ASAer. Thanks for this!

Jim Lane.

Favorite Memory The day the "gang" came down to the beach (in front of our house on Kawaihoa Beach) and had interesting interactions with riptides, the local rescue squad, and rescue helicopters. There were also repercussions at Helemano with LT DeBourke and Sgt Markland, but a unified front precluded any major punishments. On another occasion, we had Thanksgiving dinner for the tick, and our platoon leader Lt Charles Eichelberger helped with the dishes after the meal. I also remember the night that all the signals disappeared due to an atmospheric H-bomb test conducted near Johnston Island.

Worst Memory Fighting fire on the mountainside set by tracers during familiarization with 30 and 50 caliber machine guns. We had just finished a "mid" shift, and after firing our turns, spent the rest of the day putting out the fire.
